

## OUTPATIENT UNIT

### MISSION

Outpatient Unit provides diagnostic and therapeutics service, including outpatient surgery procedures, linking hospitalization with citizens' needs

The Unit is committed in the achievement of the hospital's objectives, complying with regulations, sharing experience, human resources and equipment in order to combine clinical outcome with the due care for the patient.

Service is provided both for private patient admission and National Health Service; Examinations are performed within priority timing lists, in accordance with official standards defined by Public Health Authority (Regione Veneto Law 600/07), through the main booking center CUP Office (dial the toll free number 800 599 399 Monday to Friday from 07.00 to 16.00)
